This Week

The median list price in MINDEN, NV this week is \$399,000.

Inventory is up and Market Action is trending down recently. While days-on-market appears to be trending lower, the overall conditions are weakening a bit.

Supply and Demand

- The Market Action Index has been trending lower for several weeks while prices have remained relatively stable. If inventory continues to grow relative to demand however, it is likely that we will see downward pressure on pricing.

Price

- The market is hovering around this plateau. Look for a persistent change in the Market Action Index before we see prices deviate from these levels.

The Market Action Index answers the question "How's the Market?" by measuring the current rate of sale versus the amount of the inventory. Index above 30 implies Seller's Market conditions. Below 30, conditions favor the buyer.
